Applicant's amendment filed July 14, 2003 has overcome the 35 U.S.C. 102(e) rejection of claims 1-4 and 7-11 as well as the 35 U.S.C. 103(a) rejection of claims 5, 6, and 12.

Allowable Subject Matter

Claims 1-12 are deemed allowable over the prior art of record for the following reasons:

In regards to claim 1 the prior art of record does not disclose nor fairly suggest a video camera having an approximately rectangular parallelepiped shape extending longer in a height direction of a body thereof in an image pickup state comprising a display, a moving member to move between a first and second position, wherein when the display is in the second position an image pickup optical axis of the video camera body is approximately parallel with the display plane and the major-side of the display coincides with the major-side of the video camera body, and when the display is in the first position a minor-side of the display coincides with the major-side of the video camera body. Examiner notes that this particularly discloses the display as shown in Figs. 3-6 as well as others of Applicant's disclosure.

Claims 2-8 depend from claim 1.

In regards to claim 9 the prior art of record does not disclose nor fairly suggest a video camera having an approximately rectangular parallelepiped shape extending longer in a height direction of a body thereof in an image pickup state comprising a display disposed on a side face that is approximately parallel with an image pickup optical axis of the video camera and a first shaft approximately parallel with an incident optical axis for moving the display from a position wherein the major-side of the display is parallel with the major-side of the video camera body and a second shaft approximately perpendicular with an incident optical axis for moving the

display once the display has rotated to be 90 degrees from being parallel with the major-side of the video camera body.

Claims 10-12 depend from claim 9.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

Claims 21 and 22 are rejected under 35 U.S.C. 102(a) as being anticipated by Applicant's admitted prior art.

In regards to claims 21 and 22 Examiner directs Applicant to admitted prior art figure 8 of Applicant's disclosure wherein claims 21 and 22 are clearly anticipated.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period

Art Unit: 2615

will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
